Objective: A board certified family nurse practitioner with specialty of primary health care including inpatient, outpatient, and long term care of diverse/different age group patient population eagerly seeking the position of nurse practitioner in your health care facility.

Educational Background:

- Northern Illinois University (August 2010-May 2013)
 - Master of Science in Nursing Program for family nurse practitioner
- University of Phoenix (September 2009)
 - Bachelor of Science in Nursing
- William Rainey Harper College (May 2004)
 - Associate Degree in Nursing and LPN

Employment:

- **Family Nurse Practitioner in Central Primary Care Chicago
October 2013- present**

Currently works as a family nurse practitioner in collaboration with an internal medicine physician in an outpatient/inpatient and long-term primary care whose patient population includes various ages.

Outpatient primary care clinic:

-Assesses, diagnoses, and manages patients of various ages with different health conditions from basic illnesses such as acute URI/minor injuries to chronic diseases such as HTN, diabetes, and CAD; promotes preventive care and health promotion.

Inpatient Care:

-Functions as a nurse practitioner in the department of internal medicine in several hospitals; admits, rounds, and directs patient care; collaborates with other physicians and hospital team members to coordinate patient care.

Long-term Care

-Sees and rounds patients in nursing home facilities and rehab center; directs and manages patient care of the elderly with focus in health promotion and disease prevention.

- **Charge Nurse in Step-down ICU/Alexian Brothers Medical Center
October 2009-September 2013**
 - Worked as a charge nurse and a bedside nurse in a step-down ICU department in Alexian Brothers Medical Center. Supervised other

nurses and unit staffs and serve as a mentor to new nurses. Provided care to post heart surgical patients and patients from critical care unit.

- **Staff Registered Nurse in ICU/Alexian Brothers Medical Center October 2005-2009**
 - Worked as a staff nurse in ICU. Provided and managed care to a diverse population of critically ill patients and worked with intensivists and other house doctors.
- **Staff telemetry RN (2004-2005); LPN (2003-2004)**

Special skills or strengths:

- Current APN and RN license; Certification of Family Nurse Practitioner per American Nurses Credentialing Center
- Current Advanced Cardiac Life Support Certification, CPR, and NIHSS certification
- Current CEUs annually on primary care, cardiovascular, neurological, and critical care for FNP certification maintenance
- Skills:
 - –Experience in primary care- specializes in inpatient/outpatient care and includes long-term patient care
 - –Advanced nurse practitioner skills such as direct/quick/extensive/accurate patient assessment/diagnoses/treatment management and other basic procedures
 - –Able to work in a full and busy practice independently
 - –Collaborates well with other providers and health care team members
 - –Oversees other staffs and supervises patient care in the outpatient clinic
 - –Mentors and precepts nurse practitioner students and medical students
 - -Experienced in the field of ICU and step down ICU for 8 years
 - -Knowledge and skills in the cardiac, neuro, and pulmonary field
 - -Great demonstration of leadership and communication skills

Professional activities (memberships, committees, awards, publications, speeches):

- ANCC, AANP, ANA
- The Honor Society of Nursing, Sigma Theta Tau member
- Safety Committee member in Alexian Brothers Medical Center/ICU and TCU department

Professional goal:

To utilize my experience and education in the advanced practice role of family nurse practitioner to promote health, prevent illness, and accurately assess, diagnose, and treat different age group of patients.
